ICE AURORA CONTRACT DETENTION FACILITY ACCOUNTABILITY REPORT

The Trump Administration informed Congressman Crow's office in February 2025 that it would no longer respond to regular oversight electronic information requests. These requests have been used by Congressman Crow's office under the first Trump Administration and the Biden Administration to complete and corroborate the information provided in these reports, including during the COVID-19 pandemic.

However, as of September 2025, ICE staff will no longer verbally provide information requested by congressional staff during oversight visits for the completion of these regular accountability reports. Congressional staff were instead directed to submit requests for information for the completion of these reports to the ICE Office of Congressional Relations (OCR).

Despite shifting ICE OCR policies, it is a priority for Congressman Crow to provide proper congressional oversight of the Aurora Contract Detention Facility. Congressman Crow and his Congressional office will continue making good-faith efforts to visit the facility and obtain electronic records updates from ICE.

SUPPLEMENTAL NOTES:

The contents of this report were derived from an in-person Congressional oversight visit in which ICE and GEO staff were unable to provide fulsome answers to the standard questions contained within this report. Congressman Crow's staff submitted a written request for information on January 30, 2026, and are still waiting on the information to complete the report.

The oversight visit was conducted by members of Congressman Crow's staff, who were joined by staff from the offices of Senator Bennet, Senator Hickenlooper, and Congressman Neguse.

Congressional staff confirmed that Privacy Release Waivers for initiating Congressional casework were available to detainees in the law library in 10 different languages. The law library was also in use during the visit.

Congressional staff reviewed information posted to the announcement boards in each housing unit. They noted the presence of voluntary departure fliers in 10 languages offering individuals who qualify \$2,600 if they choose to self-deport. Staff also noted that the sprinkler system inside of the C housing pod was receiving maintenance.

At the time of the visit, the staff noted one housing pod in use for transgender detainees, with at least three individuals present.
