ICE AURORA CONTRACT DETENTION FACILITY ACCOUNTABILITY REPORT

The Trump Administration informed Congressman Crow's office in February 2025 that it would no longer respond to regular oversight electronic information requests. These requests have been used by Congressman Crow's office under the first Trump Administration and the Biden Administration to complete and corroborate the information provided in these reports, including during the COVID-19 pandemic.

However, as of September 2025, ICE staff will no longer verbally provide information requested by congressional staff during oversight visits for the completion of these regular accountability reports. Congressional staff were instead directed to submit requests for information for the completion of these reports to the ICE Office of Congressional Relations (OCR).

Congressman Crow's staff submitted an electronic information request on June 5, 2026. OCR has not sent over the information requested at this time.

Despite shifting ICE OCR policies, it is a priority for Congressman Crow to provide proper congressional oversight of the Aurora Contract Detention Facility. Congressman Crow and his Congressional office will continue making good-faith efforts to visit the facility and obtain electronic records updates from ICE.

MEDICAL NOTES:

- During this visit GEO medical staff answered clarifying questions about the KITE process and the typical timeframe that they respond to requests and the process for identifying contagious diseases.
- GEO medical staff said there are no communicable diseases in the facility and are continuing to monitor and take extra precautions for any possible outbreaks.
- Detainees are tested for contagious diseases on a symptom basis.
- Congressional staff noted seven detainees being monitored for medical concerns.

SUPPLEMENTAL NOTES:

- The contents of this report were derived from an in-person Congressional oversight visit conducted by the staff members of Congressman Crow and Senator Bennet. The visit was conducted at 11 am on June 4th. Staff members provided over 24 hours' notice when sending a request to visit.

Restricted Housing and Law Library

- During the visit, staff members observed that a housing unit that had previously been used for Restricted Housing was repurposed for general population. The pod is now in use but was empty during this visit.
- There were seven detainees that staff counted being housed in the Restricted Housing area. Staff observed the paperwork that GEO is required to fill out mandating meals and outside time.
- The law library was in use during the tour. Staff visually counted eight detainees using the law library.

Kitchen and Intake

- Staff entered the kitchen and viewed the refrigerator and storage closet. A GEO staff member showed staff example meals from the past 72 hours. Staff were shown breakfast, lunch, and dinner meals for regular and diet meals. Staff observed lunch meals getting prepared and delivered to the different housing pods.

SUPPLEMENTAL NOTES:

Housing Pods

- Staff entered housing pod A in the main facility, viewing the male “high risk” population pod.
- Each communication board had “voluntary departure” information in 10 languages. There was no longer a dollar amount on the fliers.

Annex

- Staff toured the Annex area and counted visually that there were four transgender detainees in the transgender housing pod.
- When touring, staff observed that the transgender detainees were being moved from their original pod X which was on the female side of the Annex. They were moved to pod G on the male side.
- When staff asked why they were being moved, GEO staff said that they were being moved to a smaller dorm.
- When staff toured the male area within the Annex, they observed that two housing pods were not in use.

Miscellaneous information

- Staff confirmed that the mail MOU is still in place. GEO had released an MOU on how detainees will now receive their mail. Detainees will now be receiving copies of their mail in place of the actual mail. We had followed up with GEO on this and will continue to monitor to make sure that detainees are still receiving their mail.
- Staff toured the soccer field and observed men classified as low-risk playing soccer outside.
- During this visit, ICE and GEO staff were unable to provide fulsome answers to some of the questions contained within this report. Congressman Crow’s staff submitted a written request for information on June 5, 2026.
