Re: Lima Plaza Consolidation

Dear Representative Crow,

The Arapahoe County Board of County Commissioners is pleased to support a funding application for the Lima Plaza consolidation project. Funding for this project would allow the county to consolidate the operations of our workforce development center—A/D Works!—and relocate the headquarters for the new Arapahoe County Public Health Department.

This consolidation will better serve our residents as it will allow us to increase staffing at high-demand locations, thereby increasing services and reducing wait times. It will also allow us to reallocate existing administrative costs to direct health services. Funding for these projects would have a positive impact on the County's budget and will allow us to serve residents efficiently.

This is important work within our community. Thank you for your consideration.

Sincerely,

Commissioner Carrie Warren-Gully Chair of the Board
