The Honorable Tom Cole
Chairman
Committee on Appropriations
H-305, the Capitol
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
1036 Longworth HOB
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Neuromodulation Equipment for Precision Mental Health Research project in Fiscal Year 2027. The entity to receive funding for the project is the University of Colorado Anschutz, located at 1890 North Revere Court, Aurora, Colorado, 80045.

The funding would be used for the purchase of equipment to enhance a cutting-edge, non-invasive neuromodulation research program that allows scientists to better understand the differences in brain injuries and advances scientific research on all neurological disorders. This project is a good use of taxpayer funds because mental health conditions and substance use disorders are major drivers of health care spending, disability, and lost economic productivity nationwide, and many individuals do not respond adequately to existing treatment. Conducting research into how future clinicians identify the most effective treatment location for each patient will lead to increased treatment success and a reduction in the long-term burden on health care systems.

The project has a federal nexus because the funding provided is for purposes described in section 272 of title 15, United States Code.

I certify that I have no financial interest in this project and neither does anyone in my immediate family.

Sincerely,

Jason Crow
Member of Congress
