To Whom It May Concern:

RE: Littleton Public Schools ADA Accessible Restroom Initiative

On behalf of the City of Littleton, I am writing to express our strong support for Littleton Public Schools request for a grant through Congressman Jason Crow's office to advance its ADA-accessible restroom initiative.

This project represents an essential step forward in ensuring that all students, especially those with profound medical and physical needs, can fully participate in the school day with dignity, safety, and respect. By moving beyond basic ADA compliance, the school district is addressing critical accessibility gaps that directly impact students' ability to attend and engage in school.

The proposed investment in adult-sized motorized changing tables, ceiling-track lift systems, and expanded restroom facilities will provide students with the necessary support to manage personal care needs safely and with dignity. These improvements not only enhance the student experience but also protect staff from potential injury and ensure that appropriate infrastructure is in place for students requiring on-site medical support.

Importantly, this initiative removes a significant barrier to full-day school attendance, allowing more students to remain in school, participate in learning, and engage alongside their peers. It reflects a shared commitment to inclusion and equitable access to education across our community.

The City of Littleton fully supports Littleton Public Schools in this important effort and is confident that this investment will have a meaningful and lasting impact on students, families, and staff.

Sincerely,

To Whom It May Concern:

On behalf of the Arapahoe County Board of County Commissioners, we are proud to support Littleton Public Schools in its request for funding to advance its ADA-accessible restroom initiative.

Arapahoe County is committed to fostering inclusive, healthy, and accessible communities where all residents—especially children—have the opportunity to thrive. This project directly aligns with those priorities by addressing the often-overlooked needs of students with significant medical and physical challenges, ensuring they can fully access and participate in their educational environment.

By incorporating adult-sized motorized changing tables, ceiling-track lift systems, and expanded restroom spaces, the district is making a meaningful investment in dignity-centered care. These enhancements will provide safe, appropriate facilities for students requiring advanced support while also reducing the physical strain and risk of injury for school staff. Importantly, this initiative helps remove a critical barrier that can limit a student’s ability to attend school for a full day.

This effort reflects a thoughtful and forward-looking approach to accessibility. We strongly support Littleton Public Schools in this important work and its lasting, positive impact across our community.

Sincerely,

ARAPAHOE COUNTY BOARD OF COMMISSIONERS

Commissioner Leslie Summey
Chair of the Board
